Education Changes Lives,
Families, Countries, Continents

The Challenges Facing Higher Education Provision

“Higher education is a cultural and economic asset that fosters personal growth and societal progress. For vulnerable students, it offers economic security and a stable future.”

- UNESCO

Education costs are spiraling faster than inflation globally, student debt levels are at an all-time high, higher education remains 'elitist' and exclusive, there are rising mental health concerns amongst University entrants, and graduate employment levels are dropping in several countries.

\$1.75 trillion student loan debt in the United States

268.28% increase in education prices, 1993-2023

(U.S. BUREAU OF LABOR STATISTICS)

5% of the world's 82-million refugees are enrolled in higher education.

35% of students screened positive for a mental health disorder

(WHO'S WORLD MENTAL HEALTH INTERNATIONAL COLLEGE STUDENT INITIATIVE)

25% of all South Africans suffer from post-traumatic stress disorder.

4% of students that start grade 1 in South Africa end up with degrees:

(SOURCE: HIGHER EDUCATION MINISTER)

These and numerous other factors hinder access to education and achievement. In marginalized communities in Southern Africa, these challenges are significantly intensified.

Transforming Education: Maharishi Institute Case Study

Supporting World Leading Education For All

A student-led university,
cutting running costs by over 40%, enhancing
students' CVs, and achieving remarkable job
placement rates.

A space where daily **yoga and
transcendental meditation**
practices lead to a 0% rate of PTSD and chronic
depression among students, down from over 40%.

**A 95%
graduate job
placement rate,**
even in the world's highest youth
unemployment context.

A school with
annual two-week retreats
on a 4200-acre nature reserve campus, home to over
4,000 animals, helping students discover their life
purpose and achieving near-universal career success.

A university with
open access for all,
including 70% of students barred
from other institutions, achieving
a 90% internship-to-permanent-job
conversion rate.

An education institution
**charging only \$11 per month
from students,**
operating without government funding,
and achieving 80% self-sustainability.

An education institution providing
education valued at \$96,690 to students,
while costing only \$6,300
50% or less compared to other institutions,
while offering up to 20 additional services.

**This is MI:
education innovation that has
worked reliably, repeatedly, and
measurably over two decades.**

MI HAS DEVELOPED OVER 100-INNOVATIONS TO RESOLVE THESE EDUCATION CHALLENGES, ACROSS:

- A. Financing
- B. Education
 - a. Consciousness-Based Education
 - b. Curriculum Innovations
 - c. Teaching Innovations – Learning Process Innovations
- C. Education Access
- D. Partnership
 - a. Corporates
 - b. Other Educational Institutions
 - c. Government
- E. Alumni
- F. Business Model

SO THAT WE CAN OFFER
WORLD LEADING EDUCATION FOR ALL

Financially Sustainable
Technology-Enriched **Holistic**
Relevant Cutting-Edge
Scalable and Replicable **High Quality**
Low Cost to Set-Up Effective
Lowest Cost to Students

What we do, how it works

Preparing an Unprecedented Workforce

Leading educational institutions can sometimes be called: 'Genius In, Genius Out'. They take 1% of the best in a population and produce great success with these individuals. What is far more significant and game-changing, is to take the '99%' of the population, and help them become truly successful, which is MII's passion and fascination. MII aims to offer world-leading education to all at the lowest possible cost, and we know of no model that is exactly similar in the world.

'Learn & Earn': All students get a job either on campus or externally, which provides them with work experience, develops leadership skills and teamwork, and allows students to pay part of their salary forward to help another student.

'Pay it Forward': All successful graduates fund another student, less the contributions already made through 'Learn & Earn'

This practical experience gained by students, along with the integrated innovative curriculum has led to strong and consistent demand from employers. Employers comment on the strong sense of values, passion, commitment, teamwork, positivity, professional and life skills, and competence that emanate from the graduates.

Spotlight

Developing Full Potential 21st Century Competencies and Lifelong Skills

The goal is to provide \$63 billion in lifetime earnings to marginalised youth, equipping them with 21st-century skills for economic relevance and creating a fully replicable model. While completing the degree programme, students have the option to pursue a professional industry specialisation in one of the Professional Academies.

E³ and Teacher Connect

E³ and Teacher Connect

MII has led various system-change initiatives in South Africa. For instance, MII created and directs the E³ programme with the Department of Basic Education, promoting project-based learning in schools to enhance early problem-solving skills. MII also developed a mobile platform that connects nearly 70% of teachers and more than half of school principals in South Africa.

ENTREPRENEURSHIP:

The ability to start your own enterprise and eventually employ others

EMPLOYABILITY:

Good critical literacy, well-developed number sense, and the skills to solve problems will increase employability

EDUCATION:

School-leavers should be equipped with skills to be responsible good citizens, develop a strong character, and become lifelong learners

TeacherConnect is a free chat-based platform for teachers, learners, and education. It offers enrichment webinars and provides tailored training in curriculum, psychosocial support, and school maintenance for 410,000 teachers across South Africa.

CONNECT: Providing a WhatsApp chat-based, mobile support line available 24/7 to all teachers

HELPDESK: AI-powered helpline providing immediate answers and links to information

LEARN: Curriculum of E³ pedagogy in mobile format accessible via WhatsApp

MENTOR: Coaching and peer-based support and guidance

TRACK: Real-time dashboards
